

Prostor Capital – a Russian venture fund focused on profitable investments in dynamically growing companies of IT & Internet markets.

The fund was established in 2011 by a group of private investors. A famous Russian investor and entrepreneur Leonid Reiman and one of the leading top-managers of IT industry Sergey Merkulov are among its co-founders and co-investors.

Fund's investment focus – **projects that are at the stage of sustainable growth** (round A and above) having ready technological product and fast-growing clients-and-users base. These are Russian IT and Internet companies with a great local or international sales market potential, interested in foreign investments for the achievement of a new development level. The priority is given to the companies with a technological component in the sphere of new financial and advertising services, cloud technologies, projects in the sphere of innovational education and digital medicine.

Awarded as TOP 5 of the most active venture funds on the Russian market. (source: the research of Firms.ru with the support of JSC «RVC» and PwC).

Currently Prostor Capital's investment portfolio includes 9 companies, incl: Dnevnik.ru, Softrust, Platiza, MightyCall and others. Exits: VitaPortal, Umisoft.
